Open Accounting Year

Open Accounting Year Summary

CTRIS will now create the posting process that will open the New Accounting Year and roll Accounting Periods properly based upon the allowable open periods defined on the Clerk form. As users close out their EOM (for example May and the allowable open periods defined on Clerk form is two) the process will handle the creation of a new year if one is not present, and it will open the new accounting periods automatically for the user. **Note: If for some reason the process needs to be handled manually, please contact our Support Staff.**

End of Year

Close Accounting Year

Step 1: Select Process

After opening the Financials folder, select End of Year and then Close Accounting Year.

Step 2: Create Pre-EOY Database Backup

Select the **Create Pre-EOY Database Backup** link to create a backup of the database before you begin the EOY process. This is for audit purposes. A message will appear "Creating CTRIS Database Backup....This may take several minutes".

* Please note that this will take several minutes: especially for a large court.

The popup will disappear when the backup has finished.

Step 3: Print Summary Report

Select **Print Summary Report**. The summary report will appear and is available for printing, saving to file, etc.

Step 4: Create Audit File

Select the **Create Audit Files** step. You will be prompted with the screen below. A destination should default. Click **OK** to create the audit files. Click **Cancel** to exit this screen and return to the EOY menu. **If it does not, please contact support for assistance.**
